

Dear Neha,

I have always believed in doing things that are very unusual or unique in terms of styling. I like doing things that others generally would never do, and I keep looking for fashion styles that are smart yet look good on me. That's exactly what I found from you.

Your saree draping session was not just informative, but it also gave me so many ideas. I now know how to add glamour to the usual 5 and a half meter saree.

Thank you so much and I now know whom to lean on with regards to my clothing and self-image.

Lots of love to you,

Purvi Panchal
