

Testimony to Neha

I had heard of Image consultant, but my understanding was that it was mostly for women, models or someone in show business. But having met Neha I got a complete different view of Image consulting as to how she helps people from not just outer image, but also inner image. Well, my life was mostly blue, black and white, I should say my wardrobe was a total malfunction, like most men, so was shopping ability not that it bothered me much, but I wanted to change my mindset hoping to feel good. Neha patiently completed a detailed set of exercise to get me out of colour blindness. It wouldn't be wrong if I say she brought colours to my life..😊 east man colour. She helped me change my mind set on clothing and colours. She helped me junk a lot of cloths, taught me to mix & match a whole bunch of them. I am still getting used to and learning to choose cloths in colours other than blue.

Thank you Neha for the help on learning about colours, what to wear when. You bring a great perspective to dressing, I am sure everyone will benefit from your consulting services one way or other.
