5 Must Have Accessories for Working Women

1. *Structured Handbag*

A sturdy handbag that can hold its shape and can carry your laptop as well as other essentials that you would need on a daily basis for work. Tan, Beige, Navy Blue are some neutral colors that will work with almost all your outfits.

2. *Pearl Earrings*

This one is a classic and will never go out of style. For those who think Pearls are only for "older women", trust me when I say tht there is a pearl earring for every age group. A simple way to instantly elevate your look and come across as elegant & classy.

3. *Watch*

A simple classy watch makes a great style statement. While some may say that these days we don't really need a watch since our phones have all the features but even adding a smart watch to your accessories. I'm old school and would prefer a good old watch anyday !

4. *Sunglasses*

Always have a pair (or two) of good quality sunglasses as part of your accessories. They not just protect your eyes from the glare of the sun but also help you look stylish and well put together.

5. *Nude Pumps or Sandals*

A wardrobe staple, a nude pair of heels would go with any outfit that you would wear to work or to other social engagements as well. You can't really go wrong with nude footwear !
